# Colostrum RANGE

## HEALTH - WELLNESS - COLOSTRUM

From New Zealand to the World

Often referred to as nature's first food, possessing anti-bacterial, anti-viral and anti-fungal properties, colostrum is scientifically recognised for its superior protection and healing qualities.

Start your day with the Power of Colostrum!

ALPHA LIPID™  
**dinotabs**

## Immune-boosting support for our kids

Only antibodies in colostrum neutralise viruses that can cause serious viral infections in children.

- Boosts immunity and safeguards against germs and bugs.
- Builds strong teeth and bones.
- Supports great gut health.
- Delicious strawberry flavoured, chewable colostrum tablets in fun dinosaur shapes.
- No artificial sweeteners, colours or preservatives.
- Children 2 and over, suck two tablets daily.

**WOW!**  
Each tablet  
contains 400mg  
of Colostrum

## Kids will be kids

Their natural carefree way of life - mixing with lots of other children, sharing toys and playing in all weather can expose them to all manner of ills and chills.

## Healthy immunity

Your child's immune system isn't fully developed until the age of 7 or 8 years!

Bovine colostrum is a rich, natural source of important immune factors including natural antibodies. These immune factors mean that colostrum will help your children cope with the constant health challenges they may face.

## gut health

Colostrum supports digestion by providing nutrients that nourish a healthy digestive tract.

70% of all cells that make up the immune system are housed in the gut, getting their gut bacteria healthy is one of the most important things you can do to keep your child healthy.

## dental & bone health

Even though they taste sweet, Alpha Lipid™ Dinotabs do not contain sugar, so they will not contribute to tooth decay. They contain a natural sugar-free sweetener called Xylitol.

Alpha Lipid™ Dinotabs support healthy teeth and gums. Bovine colostrum supports overall oral health and calcium is important for normal healthy teeth and bone mineralisation.
