NEW IMAGE™  
THE NEXT GENERATION IN  
*Skincare Science*

Skin is firmer, smoother and more youthful looking.

Combining innovative technology with the best of nature, **Alpha Lipid™ A.G.E. Defiant Telomere Serum** is the next generation in skincare science, clinically proven to slow down skin aging.

This lightweight serum developed with molecular actives to stimulate the production of our skin cells, **leaves your skin visibly firmer, smoother, even-toned and younger-looking.**

Our patented Alpha Lipid™ Delivery System ensures Colostrum is delivered to where it can make the most difference.

**Baicalin Root Extract**

Slows down the aging process by activating telomerase making old cells function young again.

Prolonged release of our exclusive anti-aging actives, slow down skin aging, by stimulating collagen & elastin regeneration.

**Alpha Lipid™ Colostrum**  
Stimulates cell growth, improving skin thickness and elasticity.

**Linseed Oil**

Moisturising, firming plumping and smoothing, rejuvenating your skin's appearance.

**Hyaluronic Acid**

Revitalises the skin's outer layers so they look & feel softer, smoother, and more hydrated, instantly improving the appearance of fine lines and wrinkles.

**Telomere**

**shortening** is the main cause of age-related break down of our cells. Without telomere protection, our cells age & die. Slowing down the telomere burn rate leaves healthy skin cells to keep skin smooth & wrinkle-free.

**Alpha Lipid™ A.G.E. Defiant Telomere Serum** addresses all 3 signs of aging with the added bonus of Telomerase.

Activating Telomerase adds length back to your telomeres, resulting in cells living longer and functioning as they did when they were younger.

**Resulting in plumper, younger healthier-looking skin.**

**Rejuvenate your skin**  
Apply morning and night to a cleansed face, neck & décolletage.
